"Hands-on Environmentalism" is what we do ...

This is what sets the TRAA apart from other clubs and organizations. You'll find us right in the water clearing obstructions from streams, measuring returning salmonids & taking scale samples for DNA analysis, education through trout hatchery tours & stream walks, being a voice for the Thames River watershed & its inhabitants and the list goes on.

Current Projects

Salmonid Monitoring Program

Here's an overview of what happened over a few weekends in the Spring of 2012 when TRAA members and personnel from the Upper Thames River Conservation Authority (UTRCA) waded in for Year 3 of our 5-year Salmonid Tagging and Monitoring Program.....

[Read More](#)

TRAATrout Hatchery

The TRAA first began rearing rainbow trout in an outdoor upwelling incubation box back in 1986. Since then we've successfully taken on both brown trout and brook trout eggs....

Archived Projects

Walleye Hatchery

The TRAA and the Upper Thames River Conservation Authority (UTRCA), with the blessing of the Ministry of Natural Resources (MNR), agreed to the operation of a walleye hatchery.....

[Read More](#)

Stream Rehabilitation

The TRAA trout hatchery is fun and educational but the TRAA is not about stocking fish for a "put & take" style of fishery. We understand the connection between a healthy aquatic ecosystem and the sustainability of a naturally reproducing fish population, regardless.....
